## Activity Under Content Beyond Syllabus For Participative Learning (Mini Project)

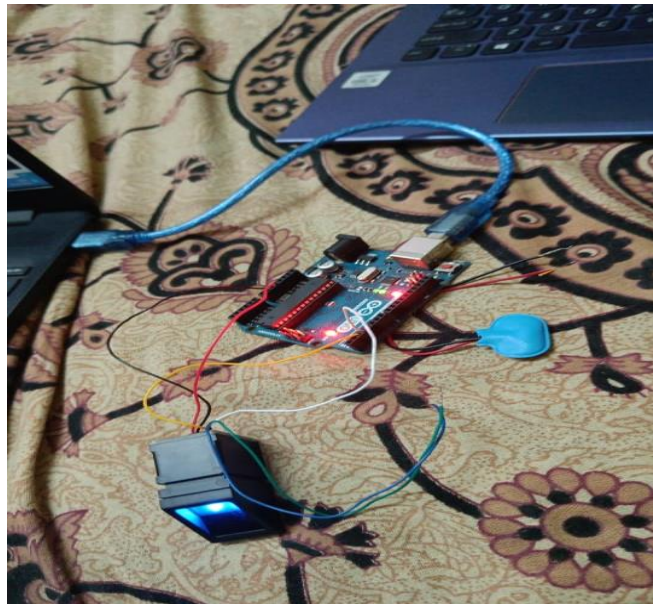

The screenshot shows a web browser window with multiple tabs. The active tab is 'dypiemr.collpoll.com/classroom/1440/assignment/474'. The page header includes the DYP logo and 'DYPIEMR' text. A search bar is present. The main content area is titled 'Assignment 6 on Content Beyond Syllabus' and is marked as a 'Class Assignment'. It specifies 'Internet of Things Laboratory - AIDS' and 'Submission Type Physical'. The text below states: 'Dear Students under this activity you need to show IOT based Mini Project. Groups For Mini Projects are as follows: 1. Group 1 from Roll no 01 To 10 2. Group 1 from Roll no 11 To 20 3. Group 1 from Roll no 21 To 30 4. Group 1 from Roll no 31 To 40 5. ### 1. Introduction

Dr. D. Y. Patil Institute of Engineering, Management & Research, Akurdi, Pune focuses on overall development of the student, molding them into a true Engineer. Students are encouraged to develop their technical skills. A wide range of activities that complement and support the academic experience in the classroom are conducted. Although the primary focus of these activities is to advance students' learning, they also provide needed services, support, and recreational opportunities to help students meet the challenges of college and to enhance the quality of their personal and professional life.

“**Drone Development** ” workshop was organized for students of Artificial Intelligence and Data Science at the Institute by department of Artificial Intelligence and Data Science of DYPIEMR.

### OBJECTIVES:

- To provide an overview about Drone making and its applications
- To provide Hands on Experience on Development and Testing and programming of Drones

## 2. CONTENT AND SCHEDULE DETAILS

Computer Engineering organized “**Drone Development**” offline workshop from 15<sup>th</sup> dec 2021 to 17<sup>th</sup> dec 2021 at DYPIEMR. The main objective of ‘ **Drone Development** ’ workshop is to understand the insights about drone making , its applications and programming.

It provides the platform to the students to understand basic concept of planning and development of drone using sensors and motors.

There were 32 participants benefited from this session.

### 3. Program Outcome Achieved

- Students got knowledge about usage of Drone
- Students are motivated to develop Drones and make an application using it.
- Students also learned domain specific requirement and making of Drones
- Students also aware about development and programming of drones.

## Appendix:

### a. copy, Approval of the Training, Sanctioned letter- If any

**Approval Note** Date: 07/12/2021

**Subject:** Approval for Drone Development Workshop in Computer Department of Dr. D. Y. Patil Institute of Engineering, Management and Research.

**Ref.:** 1) Mail from the Vendor called as Dalvik App. 2) Consent from students

A drone, in a technological context, is an unmanned aircraft. Essentially, a drone is a flying robot. Drones can be controlled by remote control system or a ground cockpit. The objective of the workshop is to make students learn and enhance skills which was discussed with IQAC coordinator;

- Aerodynamics: Explanation of forces and axes involved in flying
- Understanding of forces of flight
- Equilibrium: Understanding stable and unstable systems
- Sensors: Accelerometer, Gyro Sensor, Barometer and magnetometer
- Motors: How motors work
- Propellers: What type of propeller we are using and it affects flying
- Building Pluto Drone on your own
- Flying Training

Total 50 students from all department have shown interest for this workshop and are willing to pay Rs 500/- fees for the same. The Fees will be collected by agency directly from the students.

**Deliverable:** 1 Pluto drone worth Rs. 12000/- will be donated to institute.

The fees collected from the students will be for the kit brought by the vendor for the hands on session as informed by the vendor. Agency will donate 1 drone model to college after hands on session. This will be beneficial for students in their project and research activities in future. Students are willingly ready to pay fees for the workshop. Students have given consent for this through Google form (Attached for reference)

You are requested to kindly permit us to conduct this workshop.

### 1. Introduction

Dr. D. Y. Patil Institute of Engineering, Management & Research, Akurdi, Pune focuses on overall development of the student, molding them into a true Engineer. Students are encouraged to develop their technical skills. A wide range of activities that complement and support the academic experience in the classroom are conducted. Although the primary focus of these activities is to advance students' learning, they also provide needed services, support, and recreational opportunities to help students meet the challenges of college and to enhance the quality of their personal and professional life.

“**Web Development** ” workshop was organized for students of Artificial Intelligence and Data Science Engineering at the Institute by department of AI&DS engineering of DYPIEMR.

### OBJECTIVES:

1. To provide knowledge about HTML and HTML 5
2. To provide Hands on Experience on Development and Testing and coding of Web page

What I DO

Design

I value simple content structure, clean design patterns, and thoughtful interactions. I believe that the design of the website should be as simple and effective as possible and even a novice should be able to navigate the website easily without any problem.

Tools

- HTML
- CSS
- Sass
- Bootstrap
- Linux
- Git
- GitHub

Development

I like to code, learn, research, and enjoy bringing a new idea to life. I have a strong understanding of web development and experience with various performance and security issues.
