Term – I	Computer Engineering Department	Date of Preparation : 23/12/2023

1. Expert lecture on “How to do research and prepare research document”:

Research papers are an excellent platform to disseminate a novel finding to a general or focused audience, which may be interested in replicating the experiments; identifying novel applications for the finding, etc., as well as to popularize your research to the world and prevent duplication of the study.

2. Engineer’s Day Celebration”:

Our country celebrates National Engineer’s Day on the 15th of September each year in memory of India’s engineering icon M. Visvesvaraya. A highly disciplined engineer, he was known for his sincerity, time management, hard work, and devotion. He was a civil engineer and his work involved everything from building roadways, to dams and anti-flood systems. He never stopped learning and was sent to different countries across the globe where he studied various engineering practices. He was also awarded the Bharat Ratna for his special skills.

3. Inauguration Program:

Induction is the process of introducing new members to an organization, to their specific roles in the team. Orientation also marks the beginning of the process by which members are integrated into the organization. The main aim of induction is to provide the new members with necessary information, policies, resources and motivation to ensure their effective integration into the environment. It also aims to remove hesitation and shyness of the newly elected members and also acquaints them about the rules and regulations of the student chapter. It helps in boosting confidence, develop honesty, loyalty, a sense of belonging, and rehabilitates into the changed surroundings among students.

4. Visit to orphanage

The DYPIEMR ACM Student Chapter successfully conducted the activity visit to orphanage. This activity was conducted on 25th November 2022, Friday. The main motive of this activity was to visit orphanage and spend some quality time with children there. It was an amazing experience spending time with children. It took us back to our childhood and made us realize that childhood is the best part of life.
