AICTE & ISTE Approved
One Week STTP

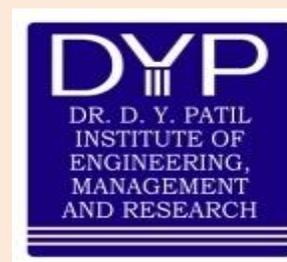

On

**“Software Testing Using
Open Source Tool”**
During 6th to 10th June 2017

Organized by
Department of Computer Engineering
Dr. D. Y. Patil Institute of
Engineering, Management &
Research, Akurdi, Pune
Contact: (020)-27656566

<http://www.dypiemr.ac.in/>

ABOUT THE INSTITUTE

D.Y.Patil Pratishthan Educational complex, Akurdi is in proximity to Pimpri Chinchwad Industrial belt, IT Park of Hinjewadi & Automobile hub of Talegaon. The Pratishthan is spread over 29 acres of land at Akurdi, which is in the vicinity of Akurdi Railway station & Mumbai - Pune Express highway.

ABOUT THE COLLEGE

DYPIEMR offers Bachelor of Engineering course in Mechanical Engineering, Computer Engineering, Electronics and Telecommunication, Civil Engineering and Chemical Engineering. The strength of the institute lies in experienced and devoted faculty members with a long-lasting commitment towards quality teaching and creative learning. As the smith has the ability to identify diamond, our faculty identifies right skills to shape and develop the student accordingly.

ABOUT THE STTP

Software Testing is a universal technology and is platform independent. The principles of Software Testing remain the same regardless on the underlying technology in which the application is developed.

That is why a Career in Software Testing is so widely acceptable and has huge scope whatever be the technology in use. As new technologies come and go, Software Testing is here to stay because every application needs to be tested regardless of the technology.

Basic Software Testing does not require very high programming skills as it is driven more by analytical skills than programming skills. A Career in Software Testing has very good growth prospects and in demand throughout the globe.

COURSE CONTENT

Day 1: To understand the different components of Testing, Types of Testing, Development life cycle, Testing life cycle, Bug life cycle, Different development models: Water fall, Agile.

Day 2: To get an idea of Why, When and How automation is needed, Configuring Eclipse.

Day 3: Write & compile Java programs Debug java code Run Java code, Write and Execute sample java programs, Write & compile Java programs Debug java code Run Java Code.

Day 4: Introduction, Configuring TestNG, Annotations , Composing tests, Assertions, Why Selenium, Selenium Components.

Day 5: Create project, Create and run tests, Executing tests on multiple browsers Debugging tests, Using locators (Id, Class, Name, xpath, css etc), Choosing locating Strategies, Handling Security popups / Alerts / Dialog boxes, Error Handling Working with various Web Elements, Buttons, Input boxes, List, Links, Radio buttons, Check boxes

IMPORTANT DATE

Last date for registration form is 5th June 2017.

RESOURCE PERSONS

Industry Experts from TCS, Capgemini, NTT Data Services, Pune

REGISTRATION

- Registration for all Faculty & Students from Computer/IT/E&TC Engineering, MCA and Polytechnic
- The Registration fee includes admission to all sessions, Kit, Tea, Breakfast and Lunch.
- The fee will be accepted in the form of Cash only.
- Spot Registration is also available

REGISTRATION FEE DETAILS

- Research Scholar :Rs. 800/-
- Academician/Research Scholar: Rs. 1000/-
- Industry Professional : Rs. 1500/-

REGISTRATION FORM

Name :

Designation :

Institution :

Address of Correspondence:
